**INNOVATIONS** in **DATA**

## More than 50 Ways to Get Up to Speed Fast

▶ Take advantage of our on-demand Focus Sessions, which will be available after the morning keynotes on the second day of the summit, <u>Wednesday, October 27</u>. Check our website and event registration application for full descriptions.

### FULL LIST

Adaptive Analytics in Action: Financial Services Use Case
Building TrakCare®: A Behind the Scenes Look at How the World's Most Trusted EMR Is Created
Client Connection: The New TrakCare Community
Cohorts, Analysis & Tracking Outcomes for COVID-19 Patients
Containerizing InterSystems IRIS® Applications
Delivering Value Quickly & Reliably: Cloud Development Experience with DevOps
Developer Ecosystem Services: Community, Global Masters, Open Exchange
Drinking Our Own Champagne: InterSystems AppServices' Move from Zen Reports to InterSystems Reports
Embedded Python for ObjectScript Developers: Working with Python and ObjectScript Side-By-Side
Embedded Python with Interoperability
Enabling Innovation (TrakCare)
Exploring Machine Learning with R Language Gateway
Exploring the Hybrid Mode in InterSystems API Manager
Git & GitLab for Shared Development Environments
Health Connect: New & Next
HealthShare® Analytics Solution: Create & Deliver Real-Time Insight at Scale
HealthShare Care Community®: Coordinating & Managing Care in a Fragmented Healthcare System
HealthShare Clinical Viewer: New & Next
HealthShare Health Insight: New & Next
HealthShare Message Transformation Services
HealthShare Storage Footprint Reduction
How Digital Twins Help Renew Your Business Faster than Your Competition
IKO: The InterSystems Kubernetes Operator (Version 3.0)
IntegratedML® Update from the Field
InterSystems IRIS Container Updates
InterSystems IRIS FHIR® Accelerator Service
InterSystems IRIS in Google Kubernetes Engine: Metrics/Logs Monitoring
InterSystems Package Manager Advanced Topics
Introducing HealthShare Extended Decision Support
Introduction to Embedded Python
Introduction to the FHIR Schema Generator
Introduction to TrakCare Advance
Join Us on a Journey from Caché/Ensemble® to InterSystems IRIS
Leveraging HealthShare Managed Connections to Improve Clinical Quality
New Efforts to Support Clinical Research
Overview of TrakCare's New Medication Planning & Reconciliation Functionality
Partner Directory: New Services for InterSystems Partners & End Users
Personal Community: New & Next

*(continued)*

# 2021 Focus Sessions

Poor Man's Analytics with Rich SQL
Prior Authorization: A Shared Provider/Payer Project
Provider Directory & Patient Index: New & Next
Running InterSystems IRIS Workloads in the Cloud: Lessons Learned
Running Large-Scale Rest API in the Cloud
Saving on Storage
Securing FHIR Applications with OAuth 2.0 (Part 1)
Securing FHIR Applications with OAuth 2.0 (Part 2)
TrakCare Chronic Disease Management
TrakCare Clinical Timeline
TrakCare Patient Engagement & Virtual Care
TrakCare Vaccination & Vaccination Passports
Unified Care Record: New & Next
Update on Intelligent Chart Review
Updates on Security: OpenSSL and a New "Security" Database
Using Automated Testing to Build Reliable, Large-Scale API Server in the Cloud
Using VS Code with Python

## ANALYTICS

Adaptive Analytics in Action: Financial Services Use Case
Cohorts, Analysis & Tracking Outcomes for COVID-19 Patients
Exploring Machine Learning with R Language Gateway
HealthShare Analytics Solution: Create & Deliver Real-Time Insight at Scale
HealthShare Health Insight: New & Next
Introduction to the FHIR Schema Generator
IntegratedML Update from the Field
Poor Man's Analytics with Rich SQL

## HEALTHSHARE

Cohorts, Analysis & Tracking Outcomes for COVID-19 Patients
Health Connect: New & Next
HealthShare Analytics Solution: Create & Deliver Real-Time Insight at Scale
HealthShare Care Community: Coordinating & Managing Care in a Fragmented Healthcare System
HealthShare Clinical Viewer: New & Next
HealthShare Health Insight: New & Next
HealthShare Message Transformation Services
HealthShare Storage Footprint Reduction
Introducing HealthShare Extended Decision Support
Leveraging HealthShare Managed Connections to Improve Clinical Quality
New Efforts to Support Clinical Research
Personal Community: New & Next
Prior Authorization: A Shared Provider/Payer Project
Provider Directory & Patient Index: New & Next
Unified Care Record: New & Next
Update on Intelligent Chart Review

# 2021 Focus Sessions

## INTERSYSTEMS IRIS & INTERSYSTEMS IRIS FOR HEALTH

Adaptive Analytics in Action: Financial Services Use Case
Containerizing InterSystems IRIS Applications
Delivering Value Quickly & Reliably: Cloud Development Experience with DevOps
Developer Ecosystem Services: Community, Global Masters, Open Exchange
Drinking Our Own Champagne: InterSystems AppServices' Move from Zen Reports to InterSystems Reports
Embedded Python for ObjectScript Developers: Working with Python and ObjectScript Side-By-Side
Embedded Python with Interoperability
Enabling Innovation (TrakCare)
Exploring Machine Learning with R Language Gateway
Exploring the Hybrid Mode in InterSystems API Manager
Git & GitLab for Shared Development Environments
How Digital Twins Help Renew Your Business Faster than Your Competition
IKO: The InterSystems Kubernetes Operator (Version 3.0)
IntegratedML Update from the Field
InterSystems IRIS Container Updates
InterSystems IRIS FHIR Accelerator Service
InterSystems IRIS in Google Kubernetes Engine: Metrics/Logs Monitoring
InterSystems Package Manager Advanced Topics
Introduction to Embedded Python
Join Us on a Journey from Caché/Ensemble to InterSystems IRIS
Partner Directory: New Services for InterSystems Partners & End Users
Poor Man's Analytics with Rich SQL
Running InterSystems IRIS Workloads in the Cloud: Lessons Learned.
Running Large-Scale Rest API in the Cloud
Saving on Storage
Updates on Security: OpenSSL and a New "Security" Database
Using Automated Testing to Build Reliable, Large-Scale API Server in the Cloud
Using VS Code with Python

## FHIR

Adaptive Analytics in Action: Financial Services Use Case
Securing FHIR Applications with OAuth 2.0 (Part 1)
Securing FHIR Applications with OAuth 2.0 (Part 2)
Health Connect: New & Next
HealthShare Message Transformation Services
InterSystems IRIS FHIR Accelerator Service
Introduction to the FHIR Schema Generator

## TRAKCARE

Building TrakCare: A Behind the Scenes Look at How the World's Most Trusted EMR Is Created
Client Connection: The New TrakCare Community
Enabling Innovation (TrakCare)
Introduction to TrakCare Advance
Overview of TrakCare's New Medication Planning & Reconciliation Functionality
